

Q-BRAKE 600

UNIVERSAL DECELEROMETER

Quick and easy MEASUREMENT OF DECELERATION

Q-Brake 600 is a practical TOOL TO MEASURE DECELERATION

for vehicles of **international category L2e - L5e - L6e - L7e**, for heavy vehicles and for farm vehicles.

The 3.5" 240x320 LCD TFT colour display provides clear test data and results by simply pressing a few buttons

Other detectable measures

Braking Efficiency / Braking Time / Initial Speed / Travelled Distance

10 memories to save tests carried out.

Made in Italy

Q-Brake 600

Universal Deceleration Meter

TECHNICAL FEATURES

- **Dimensions:** 210 x 98 x 35 mm with impact resistant shell
- **3.5" 240x320 TFT display**
- **Weight:** 500 g.
- **Power supply:** rechargeable batteries, autonomy >8h
- **Keyboard:** membrane mechanical buttons
- **Connections:** Internal Bluetooth, USB for software update.
- **Type-approved in compliance with CIRC. PROT. 1603/404.**

Test data is viewable on the instrument screen and is printable via the Bluetooth dot-matrix printer

24 columns/thermal paper supplied with the Q-BRAKE 600 Standalone kit **B**

- Tool **equipped with automatic compensation** of deviations from vertical direction
- Deceleration calculation method according to **Directive 98/12/EC**

CONTENTS OF Q-BRAKE 600 KIT

A BASIC CONFIGURATION:

- Basic processing unit
- Battery charger
- Pedal effort sensor
- Motorcycle effort sensor
- Metrological documents
- Vehicle fastening kit
- Effort adapter
- Operator's manual
- Suction cup holder
- Handlebar mount

Q-BRAKE 600 MANDATORY ACCESSORIES

B STAND ALONE KIT:

- Bluetooth printer
- Power supply cable

OPTIONAL ACCESSORIES

EXTERNAL ACCELEROMETER SENSOR

FOR ITS PROPER OPERATION, THE TOOL MUST BE COMBINED AT LEAST WITH **A** + **B**
